ANTI BLEMISH CREAM RESOLVES DARK SPOT,
MOISTURIZES, SMOOTHS AND BRIGHTENS, EVENS SKIN TONE,
REDUCES THE APPEARANCE OF BLEMISHES

DR. ASH

REPAIRING ANTI BLEMISH CREAM

- **Glutathione**, as an antioxidant, it has the ability to neutralize free radicals, which are unstable molecules that can damage cells and contribute to the aging process.
- **Papaya fruit extract** is a powerful antioxidant as it contains malic acid, Vitamin C and Citric acid. It is known to reduce aging effects, wrinkles and fine lines on the skin. It also stimulates collagen production in the skin.
- **Achillie millefolium L flower extract** has skin-brightening properties that can help even out skin tone and reduce the appearance of dark spots and hyperpigmentation. It has astringent properties that help to tighten and firm the skin, reducing the appearance of pores and fine lines.
- **Chamomilla recutita flower extract** mainly reduce skin irritation, and promote overall skin health.
- **Aloe vera leaf extract** helps to create a protective layer for the skin and also helps to retain moisture.
- **Collagen** is a protein that helps lift, tighten and plump up skin.
- **Niacinamide** is a form of vitamin B3, an essential water-soluble vitamin that supports healthy skin.

See the difference, feel the glow.
Unleash your inner glow,
one drop at a time.

VITAMIN C+

HYALURONIC ACID SERUM

ALL SKIN TYPES
ANTIAGING
ANTIDARK SPOT

DR. ASH

VITAMIN C+ HYALURONIC ACID SERUM

Dr.ASH C Serum serum is easily absorbed and penetrates deeper into skin with the special formula.

- **Vitamin C** is a potent antioxidant that stimulates collagen production and helps to reduce signs of aging by neutralizing free radicals which are generated by environmental factors such as pollution and UV rays. It promotes cellular renewal and preventing new wrinkles from forming. In addition to improving your skin's overall complexion, vitamin C can brighten otherwise dull skin, allowing it to look healthier and more vibrant.
- **Hyaluronic acid** is one of the major components of the cutaneous extracellular matrix involved in tissue repair of all tissues. As a physical background material, it has functions in space filling, lubrication, shock absorption, and protein exclusion
- **Green tea extract** contains a powerful antioxidant called EGCG that fights UV rays and prevent skin from environmental damages. It is potent antiaging and reduces signs of aging. Green tea contains polyphenols called catechins at high concentration. The catechins reduce irritation, redness and swelling. Green tea is chock full of Vitamin B2 and Vitamin E, both essential for skin health maintenance. B2 plays an essential role in maintaining collagen levels for youthful skin structure and firmness.
- **Chamomile extract** is strong antiinflammatory, great for sensitive and acne prone skin types. It has antifungal, antibacterial, antiseptic and antioxidant properties. It provides excellent healing to minor skin wounds by its own disinfection effects. Eliminates the free radicals which damage the skin and accelerate the aging process and so helps to reduce irritants.
- **Aloe vera** contains much more and very different compounds such as different nutrients, vitamins, minerals, enzymes and fibre that make it so versatile and beneficial to the skin. Rich in vitamin A, B, C, D, and E which are the most important vitamins for the skin. Aloe vera is excellent skin moisturizer, rehydrates and treats minor wounds and burns.
- **Beta Glucan** is a polysaccharide derived from fungi and attracts 20% more moisture than hyaluronic acid. It helps cleanse and smooth the skin by intensively protecting it against environmental factors while supporting the repair of skin damage and skin regeneration.

Shine from the inside, glow from the roots!

ANTI HAIR LOSS SERUM
PROMOTES HAIR REGROWTH
REDUCE HAIR LOSS
